PROSPECTUS.

The object with which this Company is formed is to start in Mysore Province a fully equipped Cotton Spinning and Weaving Mill on modern lines. It is not necessary to prove that the Cotton Industry has got practically an unlimited scope in India.

2. According to the statistical returns for the years 1914-15, 1915-16 and 1916-17, India supplies only to the extent of nearly one-third of her total consumption and the rest two-thirds is imported from foreign countries. Over and above such a large scope to meet the Indian requirements import of piece goods into India has been systematically increasing from 74 millions of yards in 1907-08 to 244 millions of yards in 1916-17.

3. In view of the increasing demands for indigenous goods as also the growing consumption of piece-goods even if large number of Mills are erected in Mysore Province they will hardly be able to turn out sufficient production to cope with the demand. An addition of a new Mill therefore is bound to achieve real success. Besides there are very few cotton mills in the Madras Presidency and in this Province compared with Bombay Presidency. With these prospects for the Textile Industry, Weaving Mills have an assured future before them and afford to shareholders a valuable and undoubted investment.

4. It is intended to start the Mill with 10,000 Spindles and 200 Looms and at the same time to extend the same as the Company prospers. The Agents who have a long experience of Cotton Industry will exert themselves to secure the most satisfactory and advantageous results in the working of the Mills.

5. There is no difficulty in securing a suitable site for the Mills at a cheap price and labour and raw materials are also abundant. It is also proposed to work the Mills by Electricity.

6. The object of the Company *inter alia* will be to carry on business of spinning and weaving and manufacturing and dealing in cotton, silk, wool, or other fibrous substances and the preparation of dyeing and coloring of any of the said substances and the sale of yarn, wool, silk cloth or other manufacture of fibrous products.

7. The following Agreement has been entered into:—

An Agreement dated 7th February 1920, between The Bangalore Spinning and Weaving Mills, Limited, of the one part and Messrs. N. Callianjee A. H. Munshi & Co., or the successors and assigns in business of Messrs. N. Callianjee A. H. Munshi & Co., who shall be the Managing Agents of the Company from the date of registration of the Company for thirty years and thereafter until they of their own will resign. The remuneration of the Agents under this Agreement is fixed at three and a half per cent commission on the gross sales of the entire manufacture and production of the Mills, an Office allowance of Rs. 1,000 (one thousand only) per mensem and they shall, during the erection and construction of the Mill, Machinery, Buildings and other works of the Company, receive a commission of two and a half per cent on all moneys expended by the Company in or about such erection or construction.

8. The articles of Association provided that the qualification of a Director shall be his holding in his own right one hundred shares of the Company of a nominal value of Rs. 10,000 and that the remuneration of each of the Directors shall be Rs. 50 (Fifty only) for every meeting of the Board attended by him and such additional reasonable remuneration as may be fixed by the Directors.

9. The amount fixed by the Articles as the minimum subscription of this issue on which the Directors may proceed to allot is ten per cent of the Issued Capital.

10. Brokerage will be paid at the rate of one per cent in respect of applications received through Brokers recognised by the Company.

11. The right of voting at General Meeting is one vote for every share.

12. Messrs. Nandlal Callianjee and Mahomed Akbar Hussain Munshi, two of the Directors, are members of Agent's firm.

13. The preliminary expenses are estimated at Rs. 10,000 (Ten Thousand only) and will be paid by the Company.

14. Copies of the abovementioned agreement and of the Company's Memorandum and Articles of Association may be inspected at the Registered Office of the Company during business hours.

15. If in any year, after three years from the date of the commencing of the Company's Mill Business, the Company is unable to declare a dividend of Seven per cent, the Managing Agents will forego upto one-third of their commission earned from the Company the amount required to meet a dividend of Seven per cent.

16. Application for shares should be made on the form enclosed and forwarded with remittance of Rs. 10 (Ten only) per share of the amount applied for to the Company's Bankers or Agents. Where no allotment is made the deposit will be returned in full.

17. Prospectus and forms of application can be obtained at the Registered offices of the Company or from the Company's Bankers.

18. A copy of the Memorandum of Association is attached herewith:—
